Walter Breen Discovers First Barber Dime Overdate

The first Barber dime overdate, an 1893 over 2, Philadelphia Mint, was shown at the Numismatic Association of Southern California convention in Los Angeles March 3 by coin expert Walter H. Breen,

who discovered the new variety.

"The nine is also recut," said Breen in describing the overdate.

He would give no estimate of its worth. "There is no record of its sale and this is the only one until another is found" he said.

Breen has a long list of overdate discoveries to his credit. The most famous is the 1869 over 8 Indian cent which is listed in the

N.A.S.C. Convention Mecca For Nation's Numismatists

Edwin M. Hydeman has returned home to Miami, Florida, still possessor of his 1913 Liberty nickel. No one topped his reserve bid of \$50,000 at the Kosoff auction held at the Numismatic Association of Southern California convention, Los Angeles, March 3-5.

"We're happy we still have our 1913 nickel," said Hydeman when

Mexican Coins Win Best-Show

Mrs. Erma Stevens, Sepulveda, Calif., won the best in show award for her display of coins of Mexico at the Numismatic Association of Southern California convention, March 3-5, Los Angeles in a meeting that drew capac-

"We had estimated six or seven hundred as top registration," said Richard Goodson, Los Angeles, newly installed president of the regional group, "and we revised our estimate to 1,200 plus."

Ninety-two bourse dealers were present; forty had been turned away; close to 300 were present at the banquet. The registration of paid attendance was 1,168 (15 less than the American Numis-matic Association's Boston convention). Unpaid attendance was estimated at 4,500. Fifty new members joined N.A.S.C. during the convention.

New officers were installed at the banquet as follows: President, Richard Goodson; president-elect (a newly-created office replacing first vice president) George Bennett; vice president, Thomas H. recording secretary, Ann M. Hall; historian, Thelma Case.

Carolyn Olson retained the position of corresponding secretary, as did Louis E. Zumwalt, as treasurer.

Ben W. Williams was the retiring president.

he and his bride were interviewed after the sale. "We're glad our bid was not exceeded!" A bid of \$41,000 was received

by auctioneer Abe Kosoff, Encino, California, for the nickel, one of five, possibly six known specimens. This established the current value of the other five coins, according to observers.

Outstanding coins in the sale that changed hands and went to new owners were:

The 1894-S dime for \$13,500, purchased by Q. David Bowers, Bowers Coin Company, Binghamton, New York, and Coin World columnist.

The 1804 dollar brought \$29,000 from an undisclosed buyer who, it was reported, would have gone to \$40,000.

The unique pair of 1866 quarter and half dollar sold for \$40,000 to Sol Kaplan, Cincinnati, Ohio. Bidding for these coins was both separate and together. The quarter bid was \$24,000, the half dollar \$15,000, both of which were topped, however, by Kaplan's \$40,-000 bid for the pair.

The 1876-CC twenty cent piece brought \$6,900 against a \$8,750

The 1879 stella with flowing hair brought \$3,500.

A Mormon half eagle of 1860 sold for \$1,450.

The 1841 quarter eagle, a scarce coin, but in worn condition was sold at \$600.

As lot 280, the 1913 Liberty nickel, came before auction, the room, already filled to capacity, bustled with commotion.

"Alright now, everybody leave!" said auctioneer Kosoff humorously, as the noisy activity and tension increased.

"We don't sell these every day," said Kosoff, as someone in the audience whistled. He an-nounced the bid of \$50,000. There

were no floor bids.
"That's it," said Kosoff as the coin went to the reserve bidder, owner Edwin Hydeman.

Selling one's collection, commented Hydeman later, "is like attending your own funeral. You dislike letting your collection go, but you meet wonderful people."

Edwin Hydeman insisted he is not leaving numismatics. "I think we'll start collecting half dollars," he said.

Auctioneer Kosoff expressed a little surprise at the prices of the rolls-down. The small cents went higher; two cent pieces were fair; three cent silver pieces caused surprise at the interest; three cent nickels were nice.

"Shield and Liberty nickels were slow," said Kosoff, "while Buffalos are enjoying a new round of interest.

Kosoff expressed a little disappointment in the prices of the gem coins in the sale. "They should have brought better," he commented.

Gold coins are establishing new basis for pricing, observed Kosoff. Liberty \$2½ are from \$22 to \$25; Indian \$21/2 are \$15.

The base for all \$3 gold has risen to absolute figure of \$100, it was pointed out.

Early half eagles, whose price has been as low as \$35 rose recently to \$85, now is \$110 as a min-

New Exhibit Opens At Smithsonian

United States' only national pub-lic coin collection at the Smith-sonian Institution in Washington, D. C. goes on display March 19 in an entirely new dress to tell the story of monetary history of the ages.

Under the direction of the Curator of the U.S. Numismatic Collection, Dr. Vladimir Clain-Stefanelli, the transformed arrangement including new display cases, is largely the work of his wife, Elvira Clain-Stefanelli.

Starting as early as 2,000 B. C. with moneyless civilizations, the exhibit covers the evolution of monetary systems as illustrated by coins and paper money throughout history. Coins are represented from the seventh century B. C. to date.

The collection is formed mainly of three portions: The Paul A. Straub group of foreign coins, the United States Mint collection and the Willis H. du Pont collection of Russian coins and medals.

The Straub collection features the largest number of gold coins on public display. The Mint collection is virtually complete in

the U. S. series of dates.

On continuous display since 1907, when the Mint collection was transferred from the Mint in Philadelphia, the collection will now be housed in newly designed cabinets. The old Mint cabinets will be stored.

Many coins have been added to the display forming the new exhibit. It goes on public view March 19, with a special preview March 18.

The numismatic collection is housed in the Arts and Industries Building, Jefferson Drive and Ninth Street, on the Mall in Washington, D. C.

Dr. Vladimir Clain - Stefanelli was scheduled to have appeared on television March 9 on the "Inga's Angle" show over WRC Channel 4 in Washington.

He showed selections of masterpieces of ancient Greek coinage from a loan collection at the

Dealer Dies In Portland

From Portland, Ore., comes word of the death in February of Robert H. Weill, since 1939 a coin and stamp dealer there and well known to Pacific Northwest numismatists.

Weill and his wife went to Portland from Germany in 1939 to escape Nazi tyranny, on the invitation of a Portland collector.

Born in Frankfurt-am-Main in 1893, Weill was a law graduate of the University of Berlin and had done post-graduate work at Heidelberg and Freiberg.

A stamp and coin collector since childhood, he used portions of his own collection to start as a dealer in Portland. He has for the past 20 years served attorneys and bank trust departments in the appraising of philatelic and numismatic estates

He is survived by his wife, Ella, and a sister, Mrs. Edith Berberich of Portland.

British Hunt, Query And Search

Women of the Osbaldwick area of York, England, are talking about "coppers" these days, and

they don't mean policemen. The women are taking part in a competition to raise funds for the Osbaldwick Community Association. The idea is to collect one penny for every year from 1860 to 1959, with the coins accumulated going into the funds of the association.

The competition, we are told, is not just keen — it is fierce! And the women are going to endless lengths to secure coins, especially the Victorian issues, known as "bun" pennies.

Charlie Norcliffe of Southport, England, is the possessor of a number of gold guineas, remains were paid in that coinage when they went ashore in foreign countries which would not accept paper money.

Norcliffe wears a gold ring made from two of the guineas, and his wife has one, also,

He carries a few old coins around with him, and says they were under the sea with him when he was shipwrecked on the Dardanelles in 1914. He has others at home, and says his grandchildren use them to play shop.

In a letter to the Brighton Gazette. Max Hodgson of Hove, says: "Many thanks to the kind programme seller at the Goldstone Ground for giving my 10-year old son a foreign coin instead of a six-

pence in his change. It was one he needed for his collection."

A. Kosoff conducted the auction at the N.A.S.C. convention. He said the cataloguing was a "new experience in thrills."

Tips On Advertising

This week we doff our hat that says "editor", and replace it with one marked "advertising manager", long

enough to give you some tips on writing advertisements.

000

Dick Johnson is reputation."

The most overlooked factor of coin advertising is consistency. Back around the turn of the century, when great minds were shaping the formulas in an infant business called advertising, one man stood out. His name was N. W. Ayer and he created an advertising agency that bears his name today.

"Keeping Everlastingly At It Brings Success" was a slogan Ayer adopted then, and was one of the reasons for the success of his agency throughout the years. Today, this doctrine is expressed: "Repetition

For the advertiser in Coin World this means: be sure you have an advertisement—no matter how small—in every issue. Our rate structure was designed to take full advantage of the consistency principle. You may enjoy our low cost contract rates . . . if you agree to use at least one inch a week!

Then when you wish to use larger amounts of space, no matter what size, you still pay the lower contract rate. But you must have an ad in every week!

Consistency in advertising is necessary because of one reason: it is extremely difficult to cram an idea into the public mind. Let's say you want it known that your firm is a specialist in Colonial coins. Do you think you can accomplish this with a few ads? It simply cannot be done. You must expect to keep at it over a period of years, repeating the concept in every ad.

By the same token, it has been proved that spasmodic advertising, no matter how good the ads, does not do an efficient job. You must have an advertising program, and be consistent in carrying out this program. Week in, week out advertising is the kind that pays full dividends.

In busness we do not hesitate to adopt ideas and practices that have proved successful with others—the trade publications are full of these "tips for the trade". Consider, therefore, the successful concepts in business advertising. The "Rock of Gibraltar" still stands for the Prudential Life Insurance Company even though their ad styles have changed over the years. Morton's salt still pours when it rains. Firestone will still run ads every year showing pictures of all the 500 mile race winners who have ridden on Firestone tires. You are familiar with these themes.

Apply this same principle in your ads! A recognized authority in the advertising field is James Woolf. Here is what he says: "Get yourself an idea, a cleancut philosophy of doing business, an attitude—a simple concept, provided it appeals to a human need—AND THEN STAY WITH IT."

A most important aspect of the consistent advertising program is that its effects are cumulative. When a campaign first starts, it may seem to have little apparent effect. But as the impression it makes gradually builds up in the public mind, the results begin to snowball.

Several Coin World advertisers have written asking why their first ad didn't pay its way. They overlooked several factors: they are comparatively unknown competing with well known dealers, and their one-shot ad campaign lacked consistency. Start small if you must, to let readers become familiar with your name, but be consistent in your every week advertising, gradually building up your reputation and the amount of advertising space you use.

Establish a master plan for your advertising. Help it to develop a personality. Keep a consistent point of view. Don't jump around from idea to idea just because you get tired of it. Start with one good idea, stick with it, and advertise every week!

orld Letters To The Editor

I am staying up past midnight to write this letter because tonight for the first time in my life I am proud to say that I belong to what I think is one of the finest coin clubs in the world. I am speaking of the Liberty Bell Coin Club of Philadelphia.

Tonight at our meeting it was announced that one of our young members present was going blind and the club would like to help him in some way if possible, because he had done so much for the good of our club.

A collection was taken up and with about only half the members and guests present we collected \$100 in five minutes. I think this shows what a fine group true numismatists really are.....

I hope and pray that our donation will help to get aid to regain his eyesight so he may continue to enjoy coin collecting and life.

Our club also has a cheer and condolence fund which is supported by articles being sold at auction which are donated by the members. They bring two and three times their value because our spirit is behind this fund.

I have read in your fine paper about the good that other clubs are doing for other unfortunate people. I hope other clubs will read these things and adopt some of these ways of helping others who might someday be in need themselves. I think you profit from all good deeds. I have my-self

H. C. Van Horn Broomall, Pa.

Enclosed is another ad for your classified page. Have received wonderful response from all of my former ads. Coin World sure seems to get the "live" ones. Keep up the good work!

C. A. Conlin Jr. Twentynine Palms, Calif.

I have been a collector for 20 years and in all that time I have never read a better publication about numismatics than Coin World. You are doing a superb job. Keep it up. Have you ever thought about offering a life subscription?

Larry C. Stillion Bedford, Ohio

I am proud to be Subscriber No. 52 of "the greatest" in numismatic periodicals—keep up the excellent editorials and publica-

Martin M. Nading Jr. Fort Wayne, Ind.

Enclosed please find new subscription for your fine newspaper. This is the second new customer I promised to get for you. Only hope there are 40,000 more people as happy as I am to get your fine newspaper. One small bit of happiness. Yesterday in payment for a 10 cent cup of coffee a customer left a fine three-legged Buffalo. Maybe my good deeds are finally coming back home.

Milt of Milt's Grill Glenwood, Ill.

Before sending my subs order I shopped around and read various other numismatic newspapers. When I received a sample copy of "Coin World" in the mail I was more than satisfied.

The other papers don't compare with yours. Your paper has interesting information and is arranged beautifully. Enclosed is a two-year subscription payment because your bonus gift subscription was so attractive. Courtesy and prompt delivery must be your mottos. Keep up the good work! A very satisfied reader....

Alan Guokas Philadelphia, Pa.

I am enclosing \$3 for another year's subscription to Coin World. I think you are doing a wonderful job in the presentation of news of interest to coin collectors as a whole, and especially for the small collector as I am. Keep up the good work.

Lloyd Bennett Girard, Kansas

I disagree with George W. Barlow (Letters to the Editor, February 16) who wrote that the Federal Reserve System should "have the mints produce coinage to their limit" in order to remedy the shortage of coins. He pointed out that it only costs the mint \$.46 to produce 145 cents.

Actually, if the mints produced coinage to their limit the result would be, I believe, inflation. This is because all our coins are subsidiary. The effect would be the same as would result from putting paper money into circulation with little or no backing. In the past this has almost invariably produced an inflation.

I would like to hear the opinions of your readers about the possible remedies of the present situation.

> Michael Bickman New York, N. Y.

I take my Coin World to work every week and leave it on my work table. The subscription blank has been cut out at least a dozen times. I know for sure of five new orders that have been sent in.

Ray Lammlen Akron, Ohio

Permit me to take issue with a point of view expressed in your Feb. 23rd issue, namely that of Mr. I. K. Stevenson on Page 10. He has my sympathies for the ordeal he has been through, but please, no hair-brained schemes such as he proposes! Boy, all we need in this hobby is to have the beauty of coins marred by chops. I can see it now......

The best idea is to have adequate protection; this means insurance coverage—no safes,
locked boxes, alarms, etc., which
usually invite trouble.

But no matter what, please... no mutilations for identification. Does Mr. Stevenson want HIS choicest pieces boldly stamped

> Alan Hogenauer New York, N. Y.

Your editorial in the Thursday, January 19, issue of Coin World was brought to my attention by a young coin collector who is the son of one of our bank employees. He felt your editorial was unjust and so do we. You seem to take

the attitude in this editorial that

all of the charges and lack of cooperation on the part of a bank is aimed at frustrating or giving a hard time to coin collectors.

I do not know the circumstances surrounding a few of your complaints but I do know this: It takes time to wrap coins, it takes to buy wrappers, it takes capital investment to buy coin sorting and counting equipment, Regular bank customers are charged in their service charge for the coin which they receive, why shouldn't a coin collector expect to carry the cost that the bank has in furnishing him with the coins he desires.

I suppose there are a few bankers who find they can buy uncirculated coins and sell them at a profit. If they have bought them and held them personally for awhile, why shouldn't they make a profit just as the coin collector will make on them?

Our bank encourages junior coin collectors. On school holidays you may find as many as 30 in various corners of the bank, each with a little pile of coins searching diligently for specific dates. We demand these juniors return the coins to us wrapped.

We supply the wrappers. If they do not do this part of the job we must spend money to have it done. They feel this is fair. The banks of this country are operated as a business. They must earn to keep the door open. Why should any one client go free while the rest pay the bill.

I do not believe our bankers are unreasonable.

W. G. Kirchner, Executive vice president Richfield State Bank Richfield, Minn.

I see that Dr. Paul de Balla of Dade City, Fla., wants to know if any one in the States has an interest in ancient coins, articles on them or advertising concerning them. There must be many. I collect denarii and Greek coins and, like him, would welcome more articles and advertising in them.

While we are at it, can't we get interest aroused in Congress to approve a more artistic set of designs for our currency? It is (Continued on Page 35)

Unknown to the vast majority of numismatists of .England, not to mention the world, the Exeter museum in England owns a vast store of old Roman coins, and a lesser amount of Byzantine coins.

The public never sees these collections, because they are kept hidden away in the back storerooms of the museum. Only when the few who know about them, ask to see them, does an assistand let the coins be examined in their storage place.

Maundy Money Ceremony Still Custom In Britain

By Loraine Burdick

Maundy Money—relics of obsolete coinage, first struck in the reign of Charles II—will trinkle in a silvery stream into the outstretched hands of the poor.... the elderly.... the children..... in England on Maundy Thursday, four days before Easter, for the Royal Maundy observance, a Church of England ceremony.

The series of four small silver coins, consisting of one penny, twopence, threepence and fourpence, were first struck in the reign of Charles II.

Now, of course, the coins are specially struck for the annual ceremony at the Royal Mint.

To meet the great demand from collectors, the Royal Mint strikes further Maundy coins in sets for sale since few of the Maundy recipients would ever consider parting with their special silver pence.

The word Maundy comes from Mandatum, meaning command or order. It goes back to John 13:34 when Jesus gave His disciples a new mandate: to love one another. It followed the foot washing after the Last Supper and in England the foot washing was taken as living out the command.

The ceremony usually takes place in Westminster Abbey but in 1957 it was performed in St. Alban's Abbey. Other churches observe the ceremony in a devout manner, but only it. England is the monarch so involved, though Austria's emperor used to serve in the proper manner and some times the custom was found in France.

Today no British feet are washed for that part of the ceremony was discontinued in the 17th century. Officials of the Almonry still are girt with towels and a nosegay of flowers is carried according to tradition.

Among those who benefit from the Maundy ceremony are the poor and elderly along with children usually selected for educational aid-in-funds because their fathers have died in the service of the monarch. The number of people who receive these alms from the crown are carefully chosen for need but they must also be a specified number each year: one man and one woman are chosen for each year of the monarch's age. Because of the honor attached, such recipients value the coins far above their face value.

The Maundy ceremony until the 17th century involved the reigning monarch's washing the feet of each recipient and even kissing them in humble imitation of Jesus.

The ceremony is traced back to

Maundy twopence, obverse and reverse, of 1838 was distributed by Queen Victoria in traditional ceremonies. Nowadays it is difficult to distinguish the coins bestowed by the monarch from those specially minted to supply collectors unless one has the actual purse. Further information can be obtained from "The Royal Maundy," published by the Royal Almonry Office, London, source for research for this feature. (Photo enlarged.)

... Address

John H. Morris Jr., Homewood, Ala., president of the newly-founded Alabama Numismatic Society, is a nationally known numismatist with friends in the hobby from coast to coast.

His most recent recognition came in the form of an appointment to serve as a member of the 1961 Assay Commission from President John F, Kennedy.

The Birmingham plumbing and heating company executive who went to Philadelphia last month to weight, test and inspect a cross section of the nation's silver coinage now has the beautiful 1961 Assay Commission medal to add to his collection of numismatic mementos.

Among these are medals from American Numismatic Association conventions since 1936!

Morris and his personable wife, opal, who shares his enthusiasm for numismatics, are familiar figures to the "regulars" at the A.N.A. conventions.

This year the Morris' will join their fellow southerners in extending hospitality at the A. N. A. convention in Atlanta—the first time it has been held in the Deep South—August 16-19.

Three past presidents of the Fresnö, Calif., Numismatic Society were presented recently with "Gavel Plaques", in a special ceremony, in appreciation for their services rendered to the Society in their terms of office. The three were Jess Watts,

More than 80 members and guests were present for the ceremony, some of whom came from as far away as Chowchilla and

Midland Ohio Club Plans Open House

Open house was to be an event of March 13 for members of the Midland Coin Club, East Liverpool, Ohio.

The club, currently conducting a membership drive, will elect officers and there will be exhibits and coin talks, according to Tom Shafer, club president. the fifth century when it preceded the Holy Thursday communion. Gradually the simple ceremony was elaborated so that the monarch made gifts of food, the very clothes he was wearing, and clothes or fabrics in addition. This posed some problems for sometimes the poor could not afford to get the fabrics made up to wear.

Or it happened as In 1556, when Queen Mary had a difficult time finding someone sufficiently worthy to receive her gown of purple cloth lined with martin's fur. (Often there were even laws forbidding the lower classes from wearing certain fabrics, furs, or metal buttons.)

In this particular year, Mary was 41 so she washed the feet of 41 ladies and went around the hall three times on her knees before she gave her gown to the oldest and poorest of them. Each, however, got a leather pouch containing 41 pence in Maundy money.

Queen Elizabeth I decided to avoid this trouble by substituting a red purse of money for hergown and all shared equally, which certainly helped to avoid any jealousy. Since her gowns were so encrusted with jewels and metallic embroidery, they were hardly suitable for a poor subject anyway. The fee was set at 20 shillings and still today each person receives a similar pound value in a red purse.

An account of the ceremony for 1572 states that, the feet were washed by the laundress, the Sub-Almoner, the Lord High Almoner, and then by the queen as she knelt on a cushion. Only the queen kissed the by now well-washed feet and then she distributed her charity: broadcloth for gowns, a pair of sleeves, a wooden platter with half a side of salmon and half a side of ling, six red herrings, six loaves of "cheat-

bread", a white wooden dish of claret wine, plus the towels and aprons used by herself and her attendants for the ceremony.

This particular ceremony lasted till sunset and it may have been an added reason why the monarch disliked increasing in years. But church officials may have felt the same, and it is recorded that in A.D. 922 Saint Oswald, Archbishop of York, died while observing the Maundy custom before the feet of the poor.

Almonry records described the ceremonies and the amounts distributed. With some pride it is mentioned that the red purses used in 1582 cost "the unusually large sum of 13 d. a doz." This was unusual, since quite often the price was only a halfpenny apiece. In 1685, the last footwashing by a monarch was recorded elsewhere thus: "On Maundy Thursday, April 16th, 1685, our gracious King James ye 2nd was'd, wip'd, and kiss'd the feet of 52 poor men with wonderful humility. And all the Service of the Church of England usual on that occasion was perform'd, his Majesty being present all the time."

It wasn't until 1932 that King George the Fifth resumed the personal distribution of even the Maundy gifts. There had been many problems of plague and wars and the keeping of the Maundy was strictly a matter of the king's own piety or desire. The service varied somewhat, as did the gifts. But monarchs were not the only ones to keep the Maundy. So far as I can find, the ruling

So far as I can find, the ruling queen distributed to both men and women but washed feet of only women; a ruling king distributed to both but washed the feet of men. In either case, the consort was free to also perform the Maundy footwashing or distribute

Small Date Cents Again On March

By Jim Kelly 333 West First St. Dayton 2, Ohio

Comments and notes made during the past several weeks: In the not too distant future "Coin Trends" will include a list

ing of United States gold coins — at least a major portion of them — as as , most well other series aft-er 1857. This is in keeping with our policy of trying to give the readers the information most desired.

Jim Kelly

Congratulations to John S. Davenport for his recent publication "European Crowns 1700 - 1800." This is a real service to collectors of foreign dollar size coins.

Numismatists the world over are certainly indebted to Mr. Davenport for this and his other wonderful contributions to collectors of Foreign coins.

The 1960 small date cents are again on the march. A reasonable advance in price was expected as they were a short issue and will be included in the new catalogue. However, the runaway — or at least what appears to be a runaway-market which is now in progress is being promoted by the same speculators who engineered and made a fortune out of the first "fandango."

While there is nothing illegal or even dishonest about such a pro-motion, it is my feeling that ma-mipulations such as these are not to the best interests of collectors or numismatics.

It is an artificial market forced higher by speculators owning up-wards of 1,000 rolls each. That's all, brother, now you are on your

Plan to attend one of the many conventions being held during the current year. You will find most of them listed completely in the last issue of Coin World. There certainly will be one close enough for you to attend.

Pennsylvania Club To **Charter Convention Bus**

The Lebanon Valley Coin Club of Lebanon, Pa., is hiring a motor coach so that all its members can attend the 22nd anniversary convention of the Penn-Ohio Clubs which is being held at the Webster Hall Hotel, Pitts-burgh, Pa., May 12-14. The Pittsburgh Numismatic Society is the host club for this important numismatic event.

The Lebanon Valley group, beaded by past president, Ira Burrell of Mt. Gretna, Pa., and secretary Edward Frey will ac-company the collectors of their club as well as any other interested parties in their area.

They believe that this is one of the first attempts of this nature by a combined group of numismatists. The Lebanon Valley Group organized this type of "convention attendance" last year last year when they visited Washington, D.

"The idea is bound to spread to other clubs in the western Pennsylvania and eastern Ohio areas because of the economy of travel in this method and the resulting advantage of 'no parking problems' and particularly the social and numismatic 'hassles' that will undoubtedly occur among the guests during the trip. Maybe,

even a coin auction enroute. That would be a 'first','' commented Ray Byrne, chairman of the Penn-Ohio convention. A warm welcome is being plan-

ned by the host club along with

news pictures of the group and

interviews, according to Byrnes.

Robberies, Prevention Club Topic

A talk on recent robberies by H. L. Carrier and safeguards against these robberies by insurance and safes, discussed by L. Thomas, formed the program for the Wayne County, Ohio, Coin Club at its February meeting, held in the Wayne County Court House.

Announcement was made of the Quad-City Coin Show and auction, to be held May 21 at the V.F.W. in Wooster. Members who wish to submit consignments for this auction are to have their lists in the hands of Zody Miller or Lyman Tucker by March 23, date of the next meeting.

Robert Jameson displayed and give short explanations on various coin collecting magazines and newspapers. He also spoke on the coin collector and his responsibility and obligation to the 10 phases and fundamentals of coin collecting.

Show May 13-14

The East Ohio Hobby Club has scheduled its annual Show and Sale for May 13 and 14, in the W. D. Packard Music Hall in Warren. Displays will include hobbies, antiques and coins. Chairman is William Jeffry, 825 Kenmore S.E., Warren, Ohio

While going through \$10 worth of cents, I found a 1909-S VDB in very good condition. I sure was thrilled as for the last seven or eight months the 'pickings" have been so bad even the common coins were hard to find. I found a 1914-D last June. I didn't think it was possible, even though I read in Coin World about other people finding them. Seemed like having an accident, you think it can happen only to the other fel-

I recently purchased a batch of old coins from a non-collector, in which I have since found an 1866 half dollar without motto, nor is there a Mint mark, Someone could have altered the coin by removing the "S". I took it to a dealer and he said he could not be sure either way. What can I do now? Norman E. Volponi,

Livermore, Calif.

ANSWER: Take it to the near-est coin club of which California has many. Ask an officer of the club to suggest an authority, then follow through by asking him to show you how the "S" was removed. If he can't, ask him who can, and so on. Stay with the problem and the coin.

The Hayward Area Coin Club and the East Bay Coin Club in Oakland are both good. Both are fairly close to you. You will get further than by trying at the start to prove there never was a Mint mark, with a bare chance you might be given that answer, if you follow through thoroughly enough, provided someone doesn't come first with adequate evidence that a Mint mark was removed. Let us know how you come out.

On checking through some Newfoundland 1899 20-cent pieces, I spotted a wide and narrow '9". (Continued on Page 37)

3-What was the first U.S. minor coin design to be selected in competition?

earlier coinage for the same purpose?

"You see the likeness of His Majesty the King, on this coin?" asked an Englishman who showed a western cowboy a British coin. "He made my grandfather a lord".

The cowboy eyed the coin, fished in his pocket and came up with an Indian head cent.

"You see the likeness of that red Injun on this here cent?", the cowboy asked. "He made an angel outa my grandpappy".

phia Mint for general issue are

Medals struck at the Philadel-

not sold for resale by dealers at a profit.

Medals minted for private organizations are sold at a profit. The government issues are sold at fixed prices

at the Philadel-phia Mint. A Ted Hammer person wanting a list of medals available there needs only to request a price list.

Those struck for private organizations are authorized by Congress. These medals are available only through these private organizations and may not be obtained from the mint

The Norse medal and "Discovery of Nevada" medal are ex-amples of those sold to organizations which in turn resell them at a profit. This same system was used when commemorative coins were minted. Congress has declined in recent years to author-ize any commemorative coins, due to resale practices that angered coin collectors as well as congress, treasury and mint officials.

Many collectors of commemorative half dollars have graduated to medals. The presidential series, for example, is truly beautiful, according to Jake B. Sureck, Oklahoma City, Okla., accountant. He has specialized in presidential medals for years. He keeps his medals in custom made plastic cases.

Since the mint sells its medals at a standard price, there could be no traffic in these items even if a dealer purchased a quantity of one issue.

Issues going to private organizations usually are limited and bring higher prices than otherwise. A limit of 20,000 medals commemorating a state centennial is a good example.

While there might not be 20,000 collectors interested in such medals, many residents of the state buy items even when not interested in collecting. Most of the medals purchased privately ultimately will find their way into collections after being passed down from purchasers to relatives or others not interested in their historical connections.

Dillick recalled that some \$125,-000 in rare coins was stolen at a Florida convention several years ago in an ingenious manner. The thieves posed as porters and carried off all the suit cases of convention guests.

In a recent Akron burglary, Herbert Baker of 1607 Kingsley Ave. suffered loss of his \$5,000 collection, taken while he was handling a coin auction at the Portage Ho-

Dillick said he believes the thieves probably had a "plant" at the auction who reported back to them near Baker's home.

Baker has since traveled to Pittsburgh and identified about 60 coins FBI agents took from a Pittsburgh area ring as his. This is 20 per cent of Baker's collec-

Restoration Of Notes Possible

Patience, Time, Iron Tools Needed

By Hank Bicciuk
You can take a coin out of circulation, but you can never take
the circulation

out of a coin.
Familiar? You
bet! The same
is true of currency. But,
there is something you can
do to improve
the overall appearance of
some circulated
notes. Many of

Hank Bieciuk notes. Many of the notes acquired from non-collector friends look as if they had been trampled to death! For some strange reason, these notes are usually badly crumpled. Others have been carefully folded and carried in billfolds for years. Even notes purchased from dealers are apt to have a couple of corners carelessly bent. All of these notes can be improved with a little time, patience, practice and an iron.

For "operation fix-up" you will need an electric iron, some Kleenex, a pocket knife and a hard smooth surface upon which you can iron. An ironing board won't do because it is usually padded and cloth-covered, and a hard surface is a must.

First, spread a Kleenex on the table and lay the note on the Kleenex. Dampen another Kleenex and keep it handy. Plug in your iron, set it at a low temperature and you are ready to begin.

Let us suppose that the note you wish to improve had a couple of corners bent. Pick up your knife (preferably a knife with small blades) and gently lift up

A cut cancel, skillfully repaired with library mending tape, a repair hardly visible.

the corners and fold them back into place. It is best to use a knife, as there is less danger of tearing the note while folding back the corners. Next, pick up the dampened Kleenex and moisten the corners you have just folded back. With the damp Kleenex, smooth down any other wrinkles or creases present. Now put a dry Kleenex on top of the note and you are ready to iron. (Placing a Kleenex on top of the note before ironing prevents giving the note a "shine.")

Now, pick up your iron and move it slowly back and forth over the note until the dampness is gone. Remove the note, place it on a flat surface, or in a book, and place more weight, such as books, over it. Leave it alone for six hours or more. Not only will the note look better, it will be worth more!

If the edges of your note are ragged, get a sharp pair of scissors and carefully cut away as much of the ragged edge as the margin of the note will permit. Most notes have fairly wide margins and will permit this little operation. Of course, if your note was cut close to begin with, there is little you can do.

For our next patient, let us se-

lect a note that is either torn or has a cut cancel. NEVER, NEVER, NEVER use a cellophane tape to repair a tear or cut! These cellophane or scotch tapes have a tendency to "bleed" after a period of time and will ruin the appearance of a note.

Go to an office supply store and purchase either the regular library mending tape or the new Magic Mending Tape by Minnesota Mining Company. Both are excellent. The big difference between the two is that the library mending tape must be moistened before applying while the Magic Mending tape needs only to be applied. Which is best is a matter of preference. I prefer to use both, depending upon the repair.

Let us assume that we are going to use the library mending tape and that the note has been torn almost in half. First, smooth down the torn edges and place them together so that they fit perfectly. If the tear is over 1 inch in length, I like to use several pieces of tape laid end to end rather than one long piece. It is far easier to work with in this manner.

The tape is on a roll and is about %" in width. Cut a piece of tape about an inch in length and about %" in width. Moisten the tape and place it over the center of the tear beginning at the end of the tear and working up to the edge of the note. Cut another piece exactly like the first and overlap the first piece at the point you ended the first repair. Continue this until the entire tear has been mended with the tape.

Notes that are cut cancelled, as almost all Government and Republic of Texas notes are, can be repaired in the same manner. Some collectors prefer not to repair cut cancels. Personally, I believe such a repair, skillfully done, actually improves the appearance of a note. It will also prevent any possible damage of further tearing the cut cancel while handling the note.

Speaking of cut cancels, I had

Coin Oddity Found In Shop

Tony DiMambro runs a coffee shop on Medomsley Road, Con-sett, near Newcastle, England. He is also a coin collector, and watches the coins that come over the counter.

Sometimes he finds foreign coins, sometimes odd ones, Recently, one of the oddest came along.

It was an 1898 shilling piece. One side had been smoothed and polished and inscribed as a medal. The inscription reads:

"R. J. Thompson won Exchange Walk, May 17, 1905." DiMambro is interested in learn-

ing more about that race.

Waco Club Gets Publicity

The Waco, Texas, Coin Club was responsible for two articles printed in the 40-page "Progress Edition" of the Waco Citizen newspaper, in February.

One of the stories was on the history of the coin club, the other on the satisfaction gained from coin collecting as a hobby.

The Waco club, established in 1947 by a half dozen charter members, now has close to 100 on its roster. It is affiliated with both the Texas Numismatic Association and the American Numismatic Association.

UNCOVERED!

The prices of uncirculated U.S. Coins for each separate year since 1935! A fascinating year to year history of coin prices that will open your eyes! Learn what the yearly price change percentage has been on each coin. Many surprises in figures revealed!

WHAT WILL YOUR EXPENSIVE COLLECTION, YOUR COIN INVESTMENTS, BE WORTH IN THE YEARS AHEAD . . . WHAT ARE THEIR "MATURITY" DATES AND ment.

For the first time this priceless data is made available in "The Profit March Of Your Coins From 1935 To 1968." Here you will find a scientific and accurate scale of future values based upon what each coin has done in the past. Up until now such predictions were based on the mere pulling of a hypothetical fig-ure out of the air. You'll see how coin prices change over the years, the price change percentages, coinage totals, projected prices from 1961 to 1968, comments on the future . . . on each and every un-circulated coin, roll, or proof set. Reading this guide will leave you with a new respect for your invest-

You'll see what the prices were back in 1936, 1945, 1950 . . . or any other year! How they have changed, startlingly, in the thirties, forties and fifties . . . and what they will be in the next four or

eight years!

Up until now, the factors involved in coin futurities have not been presented so there has been no yardstick with which to measure possibilities. Now revealing pages mathamatically prove that most investments in coins will, regardless of present confusion, produce future yields that will far ex-

Not only the coin investor, but the collector should have this guide in his possession! Collections have a way of growing and growing until they represent a tremendous investment. If you have such a valuable collection or have set aside rolls, you should know how long it will be before your coins are worth a certain amount of money . . . enough, perhaps, for college educations . . . travel . . . emergencies . . . or even partial retirement (it has been done). You'll get the answers when you have this unusual book before you. You will be shown the individual price pattern of each coin, the length of each cycle and the frequency of change. With this set pattern you can observe how long the upsurges and the downsurges lasted in the past and govern future actions accordingly.

THE PROFIT MARCH OF YOUR COINS FROM 1935 TO 1968"

LEARN WHICH COINS ARE LIKELY TO INCREASE IN PRICE FIRST. WHICH WILL OFFER THE BEST SECURITY OVER THE YEARS.

Inasmuch as the past is but a mirror of the future, it would behave any coin collector or investor to seriously review the past price history! Such records have always been evailable in other investment

fields! Now for the first time you have the same opportunity! Don't guess or worry any longer be-cause of a lack of investment knowledge!

None of these are obligated to join the coin tour but will be given first choice if they sign up before April 15th.

The Coin Tour motor coaches will depart on the long attractive journey through the Appenines, visiting the picturesque cities of Perguia and Assisi and will reach Rome in the early evening.

In the meantime the first group will have taken part in the welcome party of the I.A.P.N. on the evening of Sept. 8th, which is a sort of "get together" for the dealers of the entire world to make their acquaintances or to renew old ones. On Saturday, Sept. 9 and Sunday, Sept. 10, the I.A.P.N. has its program of business meetings, buncheons and the famous equet. Full details are expected from I.A.P.N. headquarters shortly.

MONDAY, SEPT. 11

Our own motor coaches provide sightseeing in Rome for those not occupied with I.A.P.N. meetings, which only accepts members to be present at their meeting but generally provides entertainment of tours for the wives of partici-

This is also opening day of the International Numismatic Congress and participants are supposed to register this day. Full details are expected from the headquarters of this organization.

We are not certain if the I.A.P.N. banquet will sell tickets for non-I.A.P.N. members but information will be available

Participation in the I.A.P.N. Congress is not included in the tour charges and same applies to the International Numismatic Congress for which the entry fee has to be paid in advance, being \$9.00 for principals and \$3.00 for members of family. Details will follow to all tour participants.

Now Stop Everything And Make Your Decision Before You Miss Out!

You must fill in the coupon attached before April 15th and send your deposit to HANS M. F. SCHULMAN, 545 Fifth Avenue, New York 17, N.Y., making checks out to "HANS SCHULMAN'S COIN TOUR."

We are afraid that after April 15th there may not be any more room left in our plane, but if so, the few late-comers will get a seat "first come, first served."

A roundtrip ticket to Rome in September costs about \$600 from New York for the individual traveler and a 24 day as outlined in our program would cost him a minimum of \$1200. Apart from the difficulty of making arrangements, reservations, planning such a trip and the many headaches connected with international traveling in areas overpopulated with tourists till October 1st, which we solve for you, we also seve you a large sum of money! We are even much cheaper than other escorted tours because this tour is not planned for commercial reasons.

There is a possibility that many collectors could be "disoppointed in not getting a seat on this tour because we may be sold out quickly. However we will let out a secret . . Our plane has a capacity of about 80 and if more than 140 persons subscribe, we will charter a second plane. With a minimum of 60 persons oversubscribed, a second plane can be chartered.

The hotels are selected by Hans M. F. Schulman in cooperation with Transbus, the motor coach company and are first class or good second class. All rooms have twin beds, each with both. For single rooms on extra charge has to be added (see

All meals are included during the tour, but our own exrience has shown that in the big cities, tourists want to be free and go their own way. The tour has therefore been figured in such a way that in Rome for those attending conventions and in Paris the tour only supplies breakfast and the other meals are to be taken as you please and where you like.

One meal in Amsterdam will also be at your choice. However those who go to Florence and visit Rome only shortly and go on the extra Naples, Capri, Amalfi, etc., tour will have all their meals taken care of by the tour. Particularly during the two conventions, it would be most inconvenient for the collectors to be tied to our tour when they want to join the activities of the I.A.P.N. or the International Numismatic Congress and meet with the many foreign partici-

In Paris we feel that the participants to our tour should be left free to do what they want, which includes shopping tee, although a dinner party and a night club party are planned. The tour conductors will make themselves available to give advice where to shop and to avoid that participants everpay for merchandise in France or Italy.

.

.

We already mentioned here that the departure from Amsterdam International Airport includes at least an hour in the international waiting room which has one of the most sorgeous TAX FREE shopping centers which will take care of your last minute perfume, etc., shopping.

We will also guide those numismatically interested to coin dealers, museums, coin collections, etc.

Local taxes and ordinary tips are included in the tour artengement, but tips of purely a personal nature, laundry, telephone, food apart from the regular macis, all beverages, are of course not included.

When reading the program, please note that the tour includes a night club evening in Paris, either the Lido, Casino de Paris or Folies Bergeres and Eiffel tower dinner party and Amsterdam farewell party, never connected with any com-

Every participant can individually insure himself with one of the established American casualty companies against the hazards of accidents and we do not include these special insurance arrangements in the price of the tour as many travelers are insured under yearly policies against all risks of transportation and losses of personal properties.

For those who want us to take care of the insurance we will send a printed form from a company like Continental Casualty or others. For a 30 day policy which pays \$50,000 in accidental death and dismemberment or \$5,000 in medical expenses for injuries or \$600 hospitalization for sickness and \$5,000 baggage insurance, the traveler pays \$43.35 and \$9.40 or \$52.75. For smaller protection, the premiums are lower in proportion.

Every participant will receive an insurance application and can easily decide from that what to do.

FOR BUSINESSMEN, COIN DEALERS, PROFESSIONAL NUMISMATISTS... We draw the attention to the fact that the final program when issued with all the full details will give opportunities to those who are interested to devote much of the time of the trip to the pursuit of their business in acual buying and selling or to the scientific study and research of their profession in Europe which will enable them to increase their business and professional knowledge and benefit from this when back home. These participants have a legal right to consider this coin tour a business expense and as such a tax deductible expense. Your accountant will inform you fully about details. a tax deductions fully about details.

Club Challenges New Members

New members of the Western Reserve Numismatic Club, Cleveland, receive a counterstamped pocket piece to go along with their membership booklets.

The club applies its monogram counterstamp to some relatively obscure class of token or coin, with the hope that the new member will accept the challenge and delve into the history of the piece to open new horizons in his collecting interests and activity.

Mintmaster tokens of the Germanic states and 18th century English tokens are two classes of pleces so far used by the club, which meets the second Wednesday of each month throughout the year in the club rooms of Women's Federal Savings association, 325 Superior avenue, opposite Publie Library and just off Public Square in downtown Cleveland.

Members start assembling as early as 7:30 p.m. for the business meeting at 8 o'clock, followed by program, displays and auction; visitors are always wel-

Club Letter Ads Completely Fall Off

Five years ago, when the Wi-nona, Minn., Coin Club began to issue its monthly newsletter, called "Comments", the paper was crowded with members' advertisements for coins wanted, or for sale or to trade, according to a note by its current editor, R. Finner, in the February, 1961, is-

The coming show is the second annual one sponsored by the association. All its 30 bourse tables have been reserved by dealers from New Hampshire to Florida and Ohio to California, as a "re-hearsal" for the American Numismatic Association convention a week later in Atlanta, Ga., 120 miles away.

Definite plans for the Blue Ridge convention auction will be held up until April 1, pending selection of an auctioneer, Sizemore said.

Jewish Coins On Exhibition

Coins of Jewish interest are exhibited in a small coin collection housed in Jerusalem's Hechal Shlomo, which was erected by British philanthropist, Isaac Wolfsohn.

Among the coins is a gold piece struck in 1645 by King Christian of Denmark, inscribed in bold let-ters with the four Hebrew letters of Jehova.

Also there is a series of ancient Jewish coins starting from the Hasmoneans, up to Bar Kochba. Alongside them are the official seals of the country's chief rabbis, in Hebrew, Turkish, Arabic and English.

Mobile Coins Commemorate

Mobile, Ala., is issuing a series of commemorative coins in honor

of the city's 250th anniversary. First in the series commemorated Jean Baptiste Le Moyne de Bienville, colonial governor of Louisiana and founder of New Orleans. The second coin, to be issued this month, honors Pierre Le Moyne d'Iberville, founder of Louisiana.

According to Julian deOvies, president of the anniversary celebration committee, 7,500 of the Bienville coins that were struck in February have gone into circulation, and only 2,500 remain.

The gold-colored coins are good for 50 cents each in trade at cooperating business places, They can be redeemed at any Mobile bank on or before June 9. The Mobile Area Chamber of Commerce is distributing the commemoratives to the business firms who, in turn, are distributing them to individuals.

Club Changes Site

Because of increased interest and attendance, the Ephrata, Wash., Coin Club scheduled its March meeting for the Public Utility District auditorium, in place of the Hobby Shop.

President Max Warner has appointed a committee to investigate the percentage the club should retain from auction sales.

keep in mind in grading any coin (U.S., that is), is that in Good, all digits of the date must be readable, although in some series they may be fairly well worn.

And that applies to the Standing Liberty quarters of 1916-1924, regardless of how nice the rest of the coin may be. I have seen such coins described as "Fine, two figures in date show".

That is absurd. There is nothing desirable about that coin except as "filler", to be discarded as soon as a better one shows up. I have nothing against fillers, in any series, and still have some in my own collection, but I can't see calling them anything else.

For "fine" coins, not only must the entire date be nice and clear, but so must all letters in "Lib-erty". Such descriptions as "Fine, part Liberty" are meaningless, and I have even seen a coin advertised as "Very Fine, part Liberty"!

So the first two specific points to check, when grading your own coins or when looking over a possible purchase, are the date and the word "Liberty".

On some series, of course, either or both of these two factors may be long wearing and stand out long after other points wear out, so they cannot be the sole stand-

ards by any means. The coin as a whole should be

looked at, as well as specific features. As the late C. D. Clark of Akron used to say, "A Fine coin is a fine coin", and the overall impression is important, even though that is not enough to pin down the grade.

There is a difference between a coin that is "desirable" and one that is needed. I say this for the benefit of those people who would argue with me about early Standing Liberty quarters. I have seen some that were very "nice" except for the date, and I have a few, myself. But I have them only until I can get better dated coins, and I do not consider them de sirable in the least.

To be desirable, a coin must be at least Fine, and any coin that would not be considered desirable cannot be Fine. That goes for even the scarcest coins, such as an 1894-S dime, of which 24 were coined.

Even a poor one would be kept by a millionaire but he would never call it a "desirable" coin. For some collectors, a coin would have to be Extremely Fine or Almost Uncirculated before it would be 'desirable'', but that is another matter. Fine is the minimum.

Speaking of Almost Uncirculated, or A.U., there is a lot of "hogwash" about that grade, too. To call a coin AU-Unc., meaning (Continued on Page 34)

Coin Group Moves To Elks Club

The Elks Club on Bay Street is the new meeting place for the Ancient City Coin Club of St. Augustine, Fla.

The club meets there on the third Friday of each month, and welcomes associate members and visiting numismatists.

"First Coins of the New World," was the topic of a recent program presentation; Charles Colee, secretary of the club, briefly described the quadracentennial celebration to be held in St. Augustine during 1965.

Colee proposed the Ancient City club start planning for a commemorative medal as a continuing project; this will be discussed further at the March meeting.

Dudley Wampler was named sergeant at arms for the club. A 1961 proof set gift certificate went to Mrs. John Thompson. A social and trading session followed the business meeting.

Robert Kirk New President

Officers for 1961 of the Crystal City Coin Club of Corning, N.Y., elected at the last meeting, are headed by Robert Kirk as president, according to a club report.

Other officers comprise F. J. French, first vice president; Dr. Parker M. Hoffman, second vice president; Mrs. Harold Rice secretary, and Harold Rice, treasur-

The Crystal City club holds its meetings in the Corning Glass Center. Next session is scheduled for Sunday, March 26, at 2 p.m.

Wahoo Man New President

Officers elected at a recent meeting of the Fremont, Nebr., Coin Club are led by Hans Andersen of Wahoo as president. The other officers include:

Herman Otte, vice president; Carl Hansen, secretary-treasurer, and Lloyd Stork, sergeant-atarms.

The club meetings are held monthly in the police court room.

between AU and Unc., is a contradiction in terms. There is no such thing. Either a coin is uncirculated or it is not.

There is no inbetween. If a coin has been handled beyond the bank by a non-collector, it can no long-er be graded "Uncirculated". I say non - collector, because of course uncirculated coins, BU or otherwise, are sold and traded by collectors and that does not change their grade-IF they are correctly handled.

Once a coin has changed hands on the street, it is NOT uncirculated. It can be honestly des-cribed as "AU-full lustre", and be an asset to any collection, but it is still NOT uncirculated. An uncirculated coin CANNOT be found in circulation. That is an obvious contradiction.

Everyone has found such coins, and someone even wrote me re-cently that he found a 1939-D Uncirculated in circulation. I say he is mistaken. Unfortunately, it is a common error. I have bought BU coins in auctions, and found by close examination later that while they were brilliant, they were not uncirculated and were not worth the price.

What a collector wants in his collection is his own business. But he should know what he is doing, expecially if he is paying out hard earned money for a coin. A collector without a good magnifier is like a man with one arm-he is handicapped; and unlike the man with one arm, he cannot compensate for it, and is more than likely to get "gyped", whether intentionally or not, by a seller, amateur

Collectors have written me about all the different abbreviations used in grading, and the "fifty-eleven" kinds of grades, some of which have them puzzled. The quickest answer I can give is that all coin catalogues have the main abbreviations listed, and a catalogue is just as necessary to a collector as a magnifier.

However, there has been some abuse of these grades, and some more have been added, and a little thought is helpful.

For example, an added abbreviation is "A" or "a" or "abt", 531 W. 1

"ab", all of which mean "about" or "almost", in other words, 'not quite'. This is tacked on to almost all grades, and can be interpreted as describing a coin as more than half-way between primary grades. For exam-ple, AVF, or "about Very Fine", would mean, if the grader is honest, that the coin is closer to Very Fine than it is to Fine.

It is more exact than F-VF which means just somewhere in between. DON'T get that confused with F/VF or more usually F/G, which means that the obverse is the first grade, and the reverse is the second. A (-) means the same as "to", or Fine to Very Fine, while the (/) means "over" as in overdates, or obverse over reverse, in grading.

Whether we agree with the need for all these grades is beside the point. We do need to understand them. It would be better if we went back to the old numbering system suggested in this column before, but like horse races, there is a difference of opinion.

Beyond all else, we need uni-versal agreement on how to grade, with so much mail sales, and there, for the sake of numismatics, we cannot afford difference of

In the latest issue of the Colorado-Wyoming Numismatic Association News Letter, editor Herman Boraker had some nice things to say, but I am not sure how to take his paragraph heading. I

"I knew that James G. Johnson was an avid coin collector, and a school teacher, but I didn't know he was a journalist, also. We regret losing Jim, but our loss was Coin World's gain. If you haven't read his column, you should, as it's a fine job." (Thank, Herman. I used to be a newspaper editor, but you never asked me.)

The heading reads "You can't judge a book by its cover".(!)

Houston Club Plans T.N.A. Convention From April 7-9

A balanced convention, with emphasis on an uncrowded beth the beginner and the advanced collector, and entertainsent, is the aim of the Greater Houston Coin Club when it hosts the spring convention of the Texas Numismatic Association on April 7-6, at the Sharmrock-Hilton Ho-

Bourse space was limited in order not to overcrowd the bourse area and it is now sold out, according to bourse chairman Bill Miller. Any further applications have been put on a waiting list in case of possible cancellations.

Exhibits are planned to interest collectors of all branches of numismatics, and all stages of collecting, under the direction of Norm Smith, exhibit chairman.

Entertainment for the ladies is

also on the agenda with a full Saturday scheduled. Sunday morning breakfast is slated as a social get-together without interfering with bourse activities. A floor auction is planned, with a mimeographed list available at the con-

The largest attendance in its history is expected at the session, according to A. I. Martin, general chairman and president of the Greater Houston Coin Club.

Collectors Move In

These days, if a person is caught looking over the shoulder of someone else who is buying something, he is not trying to see how much money the other fellow has, but just checking to see if the change contains a coin he wants for his collection.

Fall Show Dates Set

The Anderson, Ind., Numismatic Club has scheduled its sec-ond annual Coin Show for Sunday, October 1, to be held at the Indiana National Guard Armory on Road 109 by-pass in Anderson.

General chairman for the show is Kenneth R. Shipley, vice president of the club, 226 Federal Drive, Anderson. Bourse chairman is Bill McLain, club sergeant-at-arms, 519 Saddle Lane, Anderson.

Other 1961 officers include Howard E. Miller, president; Pauline Teverbaugh, secretary, and Pau-line Shroyer, Robert Teverbaugh and Fred Safford, board of gov-

Movie Gives Austrians Idea

As a result of the showing in Austria of the motion picture "Three Coins in the Fountain", it has become a habit in Vienna.

Several fountains there have signs inviting the visitor to throw a coin "to ensure his return" the city. Owners of the fountains salvage the coins.

In the fountain at the Imperial Palace, 2,000 schillings were fished out, recently. One odd fountain, and somewhat dangerous, is in the crocodile pond at the Zoo. The keepers there share the money that is tossed when they can get at it.

Grading To Be Topic For Club

Charles Blount was scheduled to give an illustrated talk on the "Grading of U.S. Coins", at the March meeting of the Kansas City, Mo., Numismatic Society. Also on the program was a re-

port of the February Coin Show sponsored by the society. Exhibit winners included Andy Reiz, first; Ralph Hardman, second; and Homer Marmon, third. Ribbons were presented to Hart Mayer, Kathy Flynn and Dr. Helton.
The Kansas City organization is

in the process of preparing a new membership directory.

Clearinghouse ... (Continued from Page 12)

I do not find them in any Canadian catalogue, although the New-foundland 50 cent of 1899 is so listed with both kinds of "9" Don't you think this should be of interest to Canadian collectors?

H. S. Marley, Toronto Ontario, Canada

ANSWER: We certainly do, and are printing the evidence. Close examination shows several differences both in the form of the digit and the width of the date. Why don't you clip this out and send it to Charleton? Or, better yet, go see him. Incidentally, we have a theory that such a die change for several denominations in the same year is not always a coincidence but should be looked for.

Perhaps you can set our minds at ease in regard to Proof sets. The coins are supposed to be per-fect and yet we find in our 1960 sets where the nickel is out of line; Monticello is off angle with Jefferson. Can you explain this and would it devalue our set?

Adam F. Gregg Garfield Heights, Ohio

ANSWER: You have what is called a "rotated die", from the machinery getting twisted a little. It is listed as a "medium rare" error by the Society of Collectors of Numismatic Errors, but should be more valuable because of its being in a proof set. You might contact the Society. It certainly does not devaluate the set.

I would appreciate information on an 1807 half dollar, 50 over 20, bust facing left, on which the '07 has been engraved over some date. The "O" may have been over a slightly lower "O", but no indication what the "7" is over. Stanley Howard Virginia Beach, Va.

ANSWER: Beistle's book on half dollar varieties lists one with a recut date, his 1807 13 G, which might be what you have, since it is also the 50 over 20 variety. Examine it closely, and if that does not fit, write again.

At an auction recently I bought an 1867 Indian cent in XF con-When I got it home, found that it is a specimen of the excessively rare 1867 "7 over 7". The "7" is struck over a half-dime planchet, and the smaller "7" of the half-dime protrudes above the Indian cent "7". It is a fine sharp strike, and the smaller digit of the half-dime is clear even with a weak glass. This should prove something. L. R. Lindgren

New Cumberland, Pa.

COMMENT: It proves this, among other things, that a good deal of the time people don't know what they have and, outside of the 1960 Lincolns, don't take time to look at their coins closely. Back in the more leisurely days, collectors were fussier and examined every acquisition with a microscope. People are in too much of a hurry now-a-days, and that includes coin collecting. Thanks for telling us.

P. F. Lupo, Dallas, Texas, writes of a Lincoln cent, 1913, which he found, which has all details smaller than normal, although sharp, also the coin itself. Part of the reverse has been sheared off. He wants some information.

COMMENT: If this had been a Mint error, the size of legends and Lincoln, etc., would have been normal, regardless of the size of the coin. It sounds as though it were one of the acid-treated cents which turn up every so often. The acid bath reduces the size of everything but does not dim the wording. The reverse probably was filed.

Considering the number of collectors, and the small amount of some of the coins minted, I feel fortunate that I have located a 1921-D Mercury dime in circulation, and in excellent shape. Albert R. Ingram Kearney, Nebr.

COMMENT: Of no series or denomination can it be said that they are all gone. The lucky ones are those that keep looking and never give up, although not all who do that are lucky, of course.

I am 14 years old and have been collecting for four years. I got a roll of quarters from a bank and found they were all Barbers, from G to VF. The oldest were 1898 and 1900.

Jack Cogan Canton, Ohio

COMMENT: Nice going. You never know when the lightning will strike. That should give you a good boost for your Barber quarter set.

mented as they described details of their new offering.

The holder is the result of research and experimentation to determine the right type of adhesive and the best card stock for the holder. The transparent film meets certain rigid requirements and is a patented product itself.

After two years of development, the Hudgeons E-Z Seal Coin Holder was placed on the market a month ago.

It is praised for its crystal clear view of obverse and reverse of the coins, with maximum protection against tarnish, handling and envelope wear.

It requires no staples, seals quickly, neatly and permanently. To mount the coin, the user folds die-cut card over the coin placed between two pieces of the patented protective film. Finger pressure around all four sides seals the edges to permanently enclose the coin.

The card stock is suited for pen, pencil or speedball notations and the right size for filing or store display.

Holders are designed to hold coins of denominations from one cent to 50 cents in size and sell for 25 for \$1. Holders to individuals and dealers alike will be mailed upon receipt of \$1.03 in cash, check or money order. Dealerships are currently opened and distributorship in many areas are still available.

tion of Coin World brought a deluge of replies from both dealers and individual collectors eager to see and try the new product," Tom Hudgeons Jr. said. "As a result of the tremendous response there may be need for additional manufacturing facilities.

"Present facilities and the continuance of back orders will determine any expansion moves," said Hudgeons, smiling as if to acknowledge the inevitable.

The father-son team developed "package promotion" to coincide with the introduction of the new product with everything for merchandising-from advertising mats to counter cards-ready for dealers and distributors.

the Hard Times Tradesman Tokens, which carry advertisements, often finds dealers' lists of coins for sale which state merely: LOW 110, VF, \$2 or HT Token, Duseaman, F, \$2.25.

Thus collectors, who cannot find, or cannot afford, a copy of Low, are easily discouraged from pursuing their natural curiosity. Some, like myself, manage to borrow a copy somewhere and copy it, word for word. A few even manage to arrange their own listing and add upon it through the years, as specimens come to their attention.

For the most part, though, collectors without the adequate reference tend to shy away from the field. Other publications, such as the Standard Catalogue, J. W. Scott's "Copper Coin Catalogue" etc., have listed these pieces, and all are included in Edgar H. Adams' 1920 "United States Store

Medals Galore In 1961

By Clifford Mischler

It looks as though this year, 1961, should be a very promising one for collectors of commemorative medals from both the United States and Canada. Tokens will again probably again be plentiful in the United States.

A very beautiful medal has been issued in Nova Scotia, comorating the centennial of the first decimal coinage in that province. The diameter of the medal is 39mm, and it is available in four metals; bronze (\$2.50), silver (\$5), 9K gold (\$50), and 18K gold (\$80); the two gold pieces are supplied in plush cases.

obverse pictures a sailing ship, the "Susan M. Dudman" which was built during 1861; the reverse features the official flag of Nova Scotia. These medals are being issued by the Halifax Coin Club, P. O. Box 243, Armdale, Halifax, N.S.

Now we go clear across the continent for what is sure to be another beautiful piece, as it will be struck by the Royal Mint, London, England, as was the above

This piece is being issued by the Victoria Numismatic Society, in commemoration of the centenmial of the city of Victoria, British Columbia.

This medal will be available in three metals; bronze (\$2.75), silver (\$5), and 18K gold (approx. \$100). The obverse will bear the seal of the city while the redesign has yet to be de cided upon.

Orders are taken by Mrs. Gladys Brown, 3160 Kingsley St Victoria, B. C. in behalf of the

The issue of another commemorative medal is being contemplated by another numismatic so-ciety in British Columbia, the Vancouver Numismatic Society, formerly the Vancouver Coin Club. This piece will commemorate the 75th anniversary of Vancouver. More information may be ebtained by writing the Society P. O. Box 2467, Vancouver,

Also a medal will probably again be issued in commemoration of the annual Canadian Numismatic Association convention.

Clifford Mischler

This year the convention will be held in Hamilton, Ontario. More information can be obtained from the club secretary, Bruce R. Brace, 100 Merna Ave., Hamilton. These medals always prove quite good examples of medallic

No Canadian commemorative tokens have been issued, or at least they have not been reported

With the Civil War Centennial starting this year, the next five years should result in a wide variety of commemorative medals and tokens for collectors of United States pieces. But, we are only concerned with 1961 issues and the year is off to pretty good start already.

The issue of a half-dollar size medal commemorating the Civil War has been announced by Heraldic Art, P. O. Box 5891, Cleveland 1, Ohio. No details on the design are available at this time. The medal will be available in silver (\$3.25) and gold (\$51).

A 50c trade token has been issued by the Montgomery Civil War Centennial Committee, P. O. Box 79, Montgomery, Ala. The obverse of this piece is a reproduction of the 1861 Confederate half-dollar reverse. The piece has a gilt finish, and some are being silver plated.

Another medal has been issued by Merle Thiele, P. O. Box 738, Sioux Falls, S. D. One side bears However, the predilection of col-lectors and dealers to continue to refer to Low numbers has led to this check list, which should assist collectors in numbering their specimens according to Low, giving them the relative scarcity and approximate valuation.

"It must be stressed that the valuations are tentative only, are the opinion of the author and of Dr. George Fuld of Baltimore, who revised them. Values are based on current sales prices and recent auction records, which are often indicative of nothing more than the opinion of how much a coin can bring to a dealer, or the size of a purchaser's purse.

Table I will allow the collector to identify his piece according to Low, with a little imagination, and to assess its rarity, expressed in terms of 1 (common) to 10 (unique). By comparison with Table II, he may learn its approxi-mate value. Table III, for the benefit of interested parties, will show a comparison between Low and my own rarity numbers

The excellent success of Melvin and George Fuld in their recent "Patriotic Civil War Tokens" through the use of the "1 to 10" system, has induced many other collectors to adopt the same sys-

Abbreviations used for the metals in which the tokens occur are: Ae-Copper; Br-Brass; GS-German Silver, including Feuchtwanger's Composition; S-Silver; WM-White Metal: SBr-Silvered Brass.

It is hoped that this listing will prove of merit to collectors, and lead eventually to a greater understanding and a more standardized pricing system than now pre-

Editor's Note: This table, based on Low's book does not mention ALL the Hard Times Store Card tokens definitely attributable to the Hard Times period from 1834 to 1844. Several dozen other undated pieces date from this period, and in reality should be included in any such collection. It is hoped that the new edition of the Standard Catalog of U. S. Coins, to be published by John J. Ford Jr. will help rectify this situation).
Table II applies to copper,

brass and German silver tokens. Since for practical purposes all white metal or silver pieces are R-9 or R-10, they are not included

Prices on these items vary greatly. A large quantity of such tokens are found holed, engraved or otherwise mutilated, and these will bring lesser prices. However, in this series the author feels such mutilated items are collect-ible, since ALL Hard Times Tokens are scarce when compared with any regular series of coinsespecially the large cents of this period.

the reproduction described above, while the other side portrays the Confederate flag and a shield.

This piece is NOT dated, and it has been observed in nickel-silver, oxidized nickel-silver, and gilt finishes, although other fin-ishes are probably available. This is the first issue of the new Coinof-the-Month Club, which will be described in more detail later.

It is contemplated that a nagressional legislation, will be issued by the Civil War Centennial Commission, 700 Jackson Place, N. W., Washington 25, D. C. However, it is not known when the piece will be issued, what the design will be, or what the price will be.

The inauguration of our new president has thus far brought forth three medals commemorating the event. The first is the official medal struck by the Medallic Art Co. This medal is being distributed through various outlets across the country. Bronze copies are priced at \$4.50, and silver at \$35. One copy was struck in gold for presentation to the president, John F. Kennedy.

A small (29mm) medal has been released by Hano, 1598 Third

Next comes a 36mm plece distributed by the Kansas Centennial Distributors, 1316 West 15th St., Topeka, Kansas. It is struck in oxidized bronze, and priced at \$1 per copy. The obverse bears the centennial seal, while the reverse is made up of legends.

(Editor's Note: The firm has also issued 105 different pieces from each county in Kansas by inserting the county's name on the piece—a move to help speculators make more money).

Another piece issued by the same firm is made up as a paper weight. The obverse is the centennial seal, while the reverse is covered with felt. It is struck in bronze, and the diameter is 3 inches, while the price is \$7.50.

The Kansas Centennial is also observed in the Heraldic Art Series. The metals and prices are the same as for the Civil War piece of this same firm.

Two different Kansas Centennial medals have been released by Merle Thiele. The first one has the centennial seal on the obverse, and a map of Kansas on the reverse. The second one carries a reproduction of the Kansas State Seal on the obverse, and the commemorative dates in a wreath on the reverse. Each of the medals is available in eight different metals or finishes; golden bronze, oxidized bronze, oxidized nickel-silver, and gold plated, all priced at \$1.50 per copy; nickel-silver at \$1.25, and sterling silver at \$3.50. The diameter of all of these pieces is 34mm.

This year the first of a series of coins is being struck in commemoration of the annual Mardi Gras, by Michael Kirk, 1022 Burgindy St., New Orleans 16, La. This 17-16" coin is being struck in nickel-silver, and sold at \$1 per copy. The obverse portrays a cupid with masks, and the reverse bears the New Orleans City Seal.

Another piece commemorating the Mardi Gras, which was first issued during 1960, is to be issued again this year. No details are available, but the agency is the School of Design, New Orleans, La.

The Northwest Coin Club has issued a 34mm medal in connection with the Central States Numismatic Society convention to be held in Minneapolis, Minn., this spring. Each side pictures a city skyline, they are struck in a gilt finish, and the price is \$1.10 for a pair of the pieces. They are available from Mrs. Carmen Baum, 617 8th Ave. No., South St. Paul, Minn.

The third of the Heraldic Art medallions for 1961 commemorates the Battle of Tippecanoe in 1811. Again the details are the same as for the Civil War piece of this firm

firm. (Continued on Page 42)

Old Papers Give Data On Jackson's Bank Fight

Paper currency specialists have learned with great interest of the extensive collection of old papers that shed new light on Andrew
Jackson's fight to overthrow the
Second Bank of the United States
which has been presented to Columbia University.

The papers originally belonged mas Worth Olcott, a prominent financier and philanthropist of the Jacksonian era. Included are letters from such historic figures as Martin Van Buren, William H. Seward, Salmon P. Chase, J. Pierpont Morgan and William B. Astor.

Thomas Olcott, the leading banker in New York State from 1829 to 1840, was president of the Mechanics and Farmers Bank of Albany, the central bank for all upstate New York banks.

Olcott was the major figure in the successful attempt on the part

of New York bankers to wrest the control of national banking from the Second United States Bank in Philadelphia. In 1831, he was in-strumental in promoting a resolution, opposing the recharter of the United States Bank, in the New York legislature.

The newly discovered letters. papers, diaries and memoranda indicate that Olcott exerted considerable anti-bank influence on President Jackson's Cabinet. The President, who attacked the national bank as an agency of the privileged classes, ultimately ve-

what previously have been mainly conjectures about New York banking and politics in the Jacksonian era." said Dr. Robert Rem-

The manuscript collection was presented to Columbia by Douglas Worth Olcott, great-grandson of Thomas Olcott, to mark the 150th anniversary of the Mechanics' and Farmers Bank of Albany. Mischler Continues His Discussion Of 1961 Medals

(Continued from Page 41)

An interesting piece of "Americas' Last Frontier" has been issued by John L. Guichici, P. O. Box 1266, Fairbanks, Alaska. The obverse portrays a relief map of Alaska, along with the date 1961, while the reverse bears the legend quoted above. This piece is struck in a gift finish, and has a diameter of 39mm. The price of the piece is not known.

Two slightly different varieties of encased cents have been issued in connection with the 1961 F.U.N. Convention held in Miami, Fla. The encasement has a diameter of 35mm, and it is aluminum. They are available from Herb Brand, 46 N. W. 95th St., Miami Shores, Fla., at 25 cents

The series of medals commemorating the annual New England Numismatic Association conventions will undoubtedly continue, as the series has continued uninterrupted since the first pieces were issued in 1952.

A second 50c trade token has been issued already this year. It is distributed by the McBile 250th Anniversary Comm., P. O. Box 397, Mobile, Alabama. The design of the piece is not known at this time, but it has a gilt finish.

Also, when the Dakota Territory Centennial organizations in Sioux Falls and Yankton, S. D., came out with their 1960 50c trade tokens (Commemorating the Centennial celebration which will actually take place in 1961), it was contemplated that a new issue for 1961 would be executed. No more information on these proposed pieces is available at the present time though.

No other 1961 commemorative medals and tokens have been reported up to this time.

The Coin-of-the-Month Club is a new idea being initiated this year by Merle A. Thiele, Box 738, Sioux Falls, S. D.

The purpose behind the club is to provide commemorative medal collectors throughout the country with the new commemora-tive each month, throughout the entire year. Each medal will be available in a total of six different metals or finishes.

These medals will automatically be shipped to members, at a rate of one per month, if subscribed to on an annual basis. All medals in the series will have the same diameter (15-16"), and the metals in which each issue will be available are; nickel-silver, oxidized nickel-silver, bright bronze, oxidized bronze, gold plated, and sterling silver.

Complete details, regarding prices, events to be commemorated, etc., can be obtained by writing directly to Thiele.

Golden Dollar, a souvenir of the 49th state, has been reported from the west coast in the wake of a series of news events which brought the coins into the limelight.

Three weeks ago the golden dollars were presented to the entire University of Washington Huskies team-the victorious Rose Bowl team this year.

Earlier an Alaskan golden dol-lar was used for the toss that started the Rose Bowl game on New Year's day.

Although there were reportedly only 150,000 of these commemorative coins struck, and they were removed from circulation December 31, 1959, television offers on western stations advertise the fact that the coins may be ordered from the Fairbanks Chamber of Commerce, 550 First Avenue, Fairbanks, Alaska. Cost is \$1. Coins are airmailed in cacheted covers of Alaskan Statehood.

hood were issued by the Fairbanks Chamber of Commerce to commemorate Alaska's entry into the Union of the United States.

The program, initially confined to Fairbanks, quickly spread to cover the entire state, and golden dollars were as good as gold in the "Red Dog" saloon in Juneau as they were in the "Gold Rush" saloon on the riverfront in Fairbanks in 1959, the Statehood year.

The coins were honored at any business establishment in Alaska until December 31, 1959.

They are actually gold-plated in Alaskan typically amber-gold, and since their removal from circulation have become collector's items. This coin has gone down in history as the one and only coin issued to commemorate the granting of Statehood to Alaska.

Catalog Card New Product Of Sterling

"Do it yourself" has taken a good hold in coin collecting, with one example a "Coin Catalog Card' issued by Sterling Numis

matic Supplies of Evansville, Ind. This card when assembled will hold 12 2x2 holders in such a way that the coins can be easily seen without handling, or the holders removed from the card with very slight pressure. Without the pressure, they will stay firmly in place.

The catalog cards are die-cut and punched with margin holes to fit any standard three-ring binder, so that a quantity of cards may be filed in a single album by series or Mint or the collector's own system.

The cards are \$4.50 a dozen or 39 cents each, and may be ordered from Sterling at 1351 Washington Ave., Evansville 14, if the nearest dealer has not stocked them yet.

Baby Medal Museum Piece

A medal presented to a baby girl will shortly be added to the impressive collection of medals awarded to British sailors for gallantry and distinguished service, which is on show at the National Maritime Museum, Greenwich,

The medal commemorates the birth of the girl, Jane Glass, aboard the frigate HMS Niger in 1802. But she wasn't even the daughter of a sailor. She was born the wife of a sergeant in the 17th Foot (later the Leicestershire Regt.)

The medal, found in a Glasgow antique shop, has just been presented to the museum as a me-mento of the days when troops travelled with their wives aboard warships.

The Niger was bringing men of the 2nd Battalion, 17th Foot, back from Port Mahon, in the Balearic Islands, after the Peace of Amiens had been signed between the British and French.

Says a museum spokesman: "The medal looks as though it was beaten from a coin the size of a half-crown."

Capital Of Brazilia May Issue Coins

By Hans Holzer Now that Brazilia is the newlybuilt, newly-created capital of Brazil, one must expect coins to commemorative the event.

Similarly, Australia issued a "Canberra Florin", showing the newly-built parliament building at

Lshed a new federal district and capital at Canberra, to take their capital city away from bustling Melbourne.

When the West German govern-ment established their capital at Bonn, medals also honored that event. Many in America have urged that a new capital be built in the Rocky mountains also because Washington is too close to the sea and too vulnerable in

Summertime Sessions To Be Planned

Because of increased interest and activity, the Missouri Numismatic Society of St. Louis has voted to hold its meetings through-out the summer, in place of omitting July and August sessions as the custom has been since its founding in 1938.

In addition, at a recent meeting plans were discussed to stage a Coin Festival sometime during the summer season.

At the same session, attended by well over 100 members and guests, John Stevenson, club treasurer and charter member, discussed the history of the Pedley-Ryan "so-called" dollars, issued by the Denver, Colo., investment house in 1933 to encourage the use of silver. His talk was illustrated trated by slides and a display of his collection of the "slugs". The society has added a new

feature, the creation and maintenance of a publicity log and scrap-book for the information of and reference by the members and to facilitate historical summaries.

Special Medal **Honors Leaders** Of English Club

The Huddersfield Numismatic Society in England now has a special medal to be worn by its presidents during their terms of

Design of the medal is based on the ancient York silver penny reverse (eboraci), indicating the wide scope of the society, whose membership extends from Halifax to Barnsley, Bradford and

The society, founded in 1947, was presented the medal by J. Digby Firth of Leeds, an honorary life member of the group, and a founder of the Yorkshire Numismatic Society.

Native of Huddersfield, now 84 years old, Firth is widely known in England as a numismatist.

First president to wear the medal is T. E. Morgan, of Halifax.

At the same meeting at which the medal was presented, G. Bow-er of Bradford exhibited his collection covering 1,000 years of British history, with a coin of every British monarch since the reign of Alfred the Great.

Juniors Seek Freak Value

Alex Wiatt, 14, left, and Joe Glynn, 15, Newport News, Va., examine a freak dollar bill (close-up, bottom photo) as they speculate its worth. The young collectors believe the bill was torn shortly before the sheet was printed and remained undetected throughout the printing process. They have a set of three crisp dollar bills numbered consecutively, one badly torn with part of the printing carried on the next bill. A friend cashed a pay check and received the bills in change. The ninth graders have been told the bills are worth from \$15 to several hundred dollars.

Publicity Pays Dividend

Newspaper publicity about coin collecting has more than one advantage! Because of a picture in a newspaper, a 16-year old boy now has a good start toward his first year in college.

A picture of Louis Ochs, president of the Greater Utica, Mich., Coin Club, with William Bono admiring an 1856 Flying Eagle cent in proof and valued at close to \$1,000 was printed in a Mt. Clemens, Mich., newspaper, recently.

The next day, Ochs had numer-ous phone calls from people with flying Eagle cents who wanted to know if they were worth \$1,000.

change of address form.

It turned out that one of them did have an 1856 in fine condition, and Ochs appraised it at \$400. The owner was a 16-year old boy who had bought the coin for \$5 from another boy a year ago.

Ochs advised the boy's parents to put the coin in a safety deposit box and leave it there at least until the boy was ready for college. He promised not to reveal thtir name until they could tell him the coin was in the bank.

New Greek Medal-Order **Book In Print**

A new book—in English—called "Greek Orders and Medals" by George D. Dimacopoulos has just been announced by its author.

The Greek authority wrote the book "to try and be of assistance to the historian and collector of orders and medals of my coun-

He has included all official or ders and medals of the Greek State and of various organizations, the Hellenic Red Cross, Boy Scouts, etc.

The decorations instituted by the

governments of the Autonomous Greek States of the Ionian Islands, Crete and Northern Epirus and by the various Greek Orthodox Churches are described.

The Byzantine Order of Constantine, 313 A. D., one of the oldest Orders in existence, can be found in the book. This order, according to Dimacopoulos, is awarded by the House Bourbon of the two Sicilies (Naples).

He discloses that according to

the ancient statutes of the Par-triarchate of Jerusalem, the Or-thodox Order of the Holy Sepulchre also originates in the Order of Constantine

Cost of the book is \$2.50 (\$3 air mail) and may be obtained by writing George D. Dimacopoulos, 14 Canaris Street, Athens (K).

Club To Use Stamps For **Display Tables**

The Fort Collins, Colo., Coin Club has made a tie-up with the Gold Bond Trading Stamp company in a plan to acquire dis-play tables, it was announced at the March meeting.

As the plan works, each mem-ber receives an identification card which he turns in whenever he turns in a filled trading stamp book. A certain number of "points" are then credited to the Fort Collins club which gets a free table when the right total of points per table has been credited.

It was also announced that bourse tables for the April 8 birthday party of the club will be free, but must be applied for with advance reservation for the banquet at \$2 per ticket. The party, to be held at the Odd Fellows Hall in Fort Collins, will open at 10 a.m. Non-members are welcome to attend, but should make advance reservations with the secretary, L. Hellene Bohler, P. O. Box 2, Fort Collins, Colo. The \$2 fee is all-inclusive, registration, banquet, auction and entertain-

Almost Everyone Prefers America's First Family of Coin Albums

THE LIBRARY OF COINS

By Any Standard, Still The Best!

Complete visibility and complete protection, the two most-wanted features of a coin album, are presented for the first time by THE LIBRARY OF COINS. Bound like books, handsome and compact, each Library of Coins volume displays and protects its coins between two sliding panels of clear, tough plastic. Each coin "porthole" has printed next to it full data on mint mark and quantity minted. Each volume contains a brief background story on the coins, giving both the novice and advanced collector helpful information, including a listing of the rare dates.

Measuring 81/4" x 61/4", the volumes are low priced, sturdily manufactured, and permanently bound in a variety of identifying colors for the various denominations. Their compact size permits the storing of a large coin collec-tion in very small space. Backbones are clearly gold stamped so that they are as readily identifiable as are books.

The Library of Coins represents the first major innovation in high grade coin albums in more than 30 years, and was several years in development. Designed by numismatists, the Library of Coins is designed to satisfy the needs and desires of numismatists. Write for descriptive circular on the Library of Coins.
